

# STAKEHOLDERS SENTIMENT SURVEY

The Stakeholders Sentiment Survey Rankings, by R. World Institutional Rankings represents a pioneering approach in evaluating Higher Education Institutions (HEIs) through the lens of direct stakeholder feedback. As the first ranking analysis of its kind, it provides invaluable insights drawn from the actual perceptions, emotions, and sentiments of those most closely engaged with these institutions.

By employing advanced sentiment analysis—ranging from rule-based systems to sophisticated machine learning techniques—R. World has unlocked a powerful new perspective on institutional performance. This research leverages unstructured data sources like social media, feedback forms, and support channels to capture genuine stakeholder sentiment, making it an essential resource for institutions aiming to build brand trust, enhance student and staff satisfaction, and align closely with stakeholder expectations.
